STANDARD AND OPTIONAL EQUIPMENT

	Model/Equipment	N20 XL
	Front casted steel bumper	•
	Automatic speed reduction when cornering	•
	Linde BlueSpot™	0
ety	Front rubber protection (mounted on the casted steel bumper)	0
Safety	Front feet protection	0
	Mast stop landing (300 mm)	•
	Key switch	•
	Log in PIN code	0
Service	CAN bus architecture	•
	Linde connect: desk	0
5	ac: access control (PIN or RFID)	0
Digitalisation	dt: crash detection	0
alis	an: usage analysis	0
igit	Linde connect: cloud	0
	Basic Package (trouble codes, operating hours, truck mapping)	0
	Data Transmission (WiFi or Online)	0
Operation / Load Handling	Initial lifting control	•
Operation / oad Handlin	Initial lift electrical stop sensor	•
erat I Ha	Soft landing on forks	0
Op o	Load backrest 1000 mm	0
	Inching control (forward only or forward/backward)	0
Enviroment	Cold store protection to -35°C	Ο
	Fully suspended operator compartment	•
	Height adjustable Linde Steering Wheel	0
	Knee protection	•
o,	Multifunction coloured display hour meter, maintenance indication, battery discharge indicator and internal fault code indication	•
lace	Fixed roundly shaped backrest	•
Workplace	Height adjustable backrest including foldable seating support	0
×	Front bow	0
	Support data terminal and power supply cable 24 V	0
	Support clipboard DIN A4 and support for scanner	0
	Shrink wrap pole Rear lower storage	0
٠	Mast protection in polycarbonate	
Mast	Mast protection in polycuronate Mast protection in mesh	0
	Fork carriage: 580 mm	•
Attachment / Forks		•
orks	Fork carriage length: 2400 mm	
ttac	Load arms length: 1200 mm	•
⋖	Overhang: 188 mm	•
힏	Drive wheel polyurethane	0
des ar Tyres	Tandem load wheels polyurethane	0
Axles and Tyres	Tandem load wheels polyurethane greasable	•
	Standard castor wheel	•
E	Power assisted steering	
nd ster	3 kW AC motor (maintenance free)	•
Drive and ake-Syste	Electromagnetic braking system Pattern composition of the collection of the composition of the collection of the collec	0
Drive and Brake-System	Battery compartment, lateral battery change 3 PzS (345 Ah/375 Ah) and 4 PzS (460 Ah/500 Ah), including ergonomic lever and metal rollers Battery compartment, Li-ION battery available	0
B	Li-ION 24 V-Charger	0
	LI TOTA 24 Y CHOLYCI	<u> </u>

Standard equipment

Optional equipment

Order Picker

N20 XL

Capacity 0.6 t | Series 1115

Powerful picking solution

- → Long forks enable the simultaneous transport of two pallets with a total weight of up to 1.6 t
- \rightarrow Picking of both pallets (2 × 300 kg) takes place at a height of 750 mm which protects the back
- → Operator's platform in front of the battery provides a clear view of the warehouse environment and facilitates rapid detection of hazardous situations
- → The operating platform is fully suspended and reduces vibrations or shocks caused by unevenness in the ground

CHARACTERISTICS

Linde BlueSpot™ and front LED light

- → Three braking systems protect the driver and load
- → Flattened contours of the chassis and rounded driver's platform as well as the automatic track centering of the Linde steering wheel offer additional safety
- → Automatic stop if the vehicle registers an unoccupied driver's platform or the emergency button is activated
- → Additional options such as front LED and Linde BlueSpot™ maximize safety

- → Wide operator's platform, easily accessible from both sides, with low access for easy boarding and alighting
- → Order picking of two pallets at a height that is easy on the back saves unnecessary movements
- → Individual design of the driver's cab with many storage areas
- → Intuitively operable Linde Steering Wheel with meaningful symbols indicating
- → Fully suspended operator's compartment reduces vibrations and shocks

Intuituve Linde Steering Wheel

- \rightarrow 3 kW three-phase AC motor for effective acceleration to a top speed of 12 km/h
- → Optimum power supply to suit the requirements of the fleet through lead-acid or optional lithium-ion batteries
- → Double-sided pedestrian operation saves unnecessary boarding and alighting
- → Initial lift facilitates transport over ramps and uneven surfaces

- → Up to 1000 operating hours without service check
- → Maintenance-free three-phase AC technology and adjustment-free brakes
- → Easily removable cover to engine compartment for easy access to central components
- → Cable harnesses and cables clearly arranged for quick maintenance
- → Vehicle data quickly readable via CAN bus connection
- → Robust cast-steel front bumper protects truck chassis and driver's platform from damage

Subject to modification in the interest of progress. Illustrations and technical details could include options and not binding for actual constructions. All dimensions subject to usual tolerances.
